Subject: Envision SJ comments

Dear Mr. Brilliot:

I would like to express my opinions on the Envision San Jose 2040 Plan. I would like to keep to an absolute minimum the inevitable increase in population and density and congestion. I compliment the Plan's commitment to protect open space, preserve sensitive watershed areas, and protect single family neighborhoods – please do not put effort into attracting employment and housing – I think the Bay Area, in the last 20 or 30 years, has grown too populated as it is. Thanks for allowing me to present my opinions.

Ron Canario
San Jose resident since 1950
